

QuestRock Loan Lifecycle

THE QUESTROCK LENDING HUB SYSTEM

A structured system engineered for precision, speed, and confidence — from first contact to funded loan.

1

Verification

2

Validation

3

Close

Core Doctrine

Every phase of the QuestRock Loan Lifecycle has a distinct purpose. Understanding these roles ensures every loan moves with clarity and momentum.

Verification

Builds the Loan

Structure, strategy, and program selection happen here — before anything enters the pipeline.

Validation

Confirms the Loan

The QuestRock Lending Hub activates to review, verify, and advance the file toward approval.

Closing

Executes the Loan

Final approval is issued, closing is scheduled, and funds are disbursed with precision.

The Loan Lifecycle Framework

Every loan follows a disciplined five-stage path from initial lead to funded file — each stage building on the last.

1

Verification

First Call, Discovery, Vision Flyby, Loan Structured, Application Signed, Docs Gathered, Appraisal Ordered - Piped

2

Validation

Validation Launch, Processor Intake, Investor Submission, Conditions Issued/Cleared, Appraisal Return, Final Approval - Handoff to Close

3

Close

Approval Executed and Closed

4

Fund

Loan Disbursed

PHASE 1

Verification

Building and structuring the loan before presentation. The loan officer owns this phase — gathering borrower data, identifying the right program, and modeling the complete financial picture.

Gather Information

Collect borrower financials, goals, and qualifying data

Identify Program

Select the optimal loan structure and product

Model the Deal

Calculate payment, cash to close, and strategy

Deal Desk Review

Internal review confirms structure before presentation

Verification Goal & Validation Launch

The Verification Goal

The loan officer's objective is to present a **confident, fully structured solution** to the borrower — one that is ready to move immediately upon commitment.

- Present a complete, structured loan solution
- Secure the signed package from the borrower
- Collect the appraisal payment to activate Validation

Transition Milestone

Validation Launch is triggered only when both conditions are met:

-  Signed Package received
-  Appraisal Payment collected

Both required. No exceptions.

PHASE 2

Validation

The moment a loan is piped, the **QuestRock Validation Team** activates around the loan officer — providing structure, accountability, and momentum from day one.

File is Piped and Live

Validation team is immediately engaged

Condition Forecast

Expected conditions outlined upfront

Processor Assigned

Named contact provided to the loan officer

Strategy Call

Optional call link offered for alignment

Validation Stage Overview

The Validation phase moves through five structured stages, each with clear ownership and defined outputs — ensuring no file stalls and no detail is missed.

Each milestone triggers a proactive communication update to both the borrower and the loan officer — keeping all parties informed and confident throughout.

Team Responsibilities in Validation

Processor Responsibilities

Document Stacking

Organize and catalog all incoming borrower documents

Condition Management

Track, request, and clear all outstanding loan conditions

Borrower Coordination

Facilitate direct communication for document needs if prompted by Loan Officer

Loan Officer Responsibilities

Borrower Communication

Own the borrower relationship and manage expectations

Condition Support

Assist in sourcing and delivering outstanding items

Relationship Management

Maintain trust and confidence through close

PHASE 3

Close

Closing is where precision meets momentum. Every step is deliberate, every milestone confirmed — from final approval to funded loan.

Final Approval

Underwriting issues final sign-off on the complete file

Clear to Close Issued

All conditions satisfied — the loan is cleared for closing

Closing Scheduled

Date, time, and title confirmed with all parties

Loan Funded

Funds disbursed — the loan lifecycle is complete

The QuestRock Lending Hub

VERIFICATION → VALIDATION → CLOSE

A system designed to move loans faster and support loan officers like partners.

Velocity Wins

Speed without sacrifice — every stage is optimized for rapid, clean execution

Structure Wins

Disciplined processes eliminate surprises and protect every stakeholder

Confidence Wins

Borrowers and loan officers move forward knowing the system has their back
